This document is intended to provide information on a selection of regulatory topics. For information regarding product safety, hazards/precautions, storage/handling, and toxicity/ecotoxicity, please consult our Safety Data Sheet (SDS). For physical-chemical properties and product specifications, please consult the Technical Data Sheet (TDS/PDS).

The product is in accordance with the EU Cosmetics Regulation 1223/2009/EC provided that a complete risk assessment is carried out on the final cosmetic product it is used in.

PRODUCT IDENTIFICATION

AUGEO® CLEAN MULTI

INCI/HCPA name:Isopropylidene glycerol

COMPOSITION FOR CUSTOMER COMMUNICATION

Function	Chemical name	INCI/HCPA name	CAS No.	EINECS/ELINCS/ CE/INDEX/NLP	Concentration/range	IECIC*
Active agent	2,2-dimethyl-1,3-dioxolan-4-ylmethanol	Isopropylideneglycerol	100-79-8	202-888-7	99 -100 %	NO
Residual solvent	acetone	ACETONE	67-64-1	200-662-2	< 0,02 %	YES

Other impurities than the one(s) mentioned in the disseminated composition might be present in the product. However, they are not relevant under the scope of the European Cosmetics Regulation 1223/2009 because, to the best of our knowledge, no risk is expected under normal and foreseeable conditions of use of the product.
Other impurities than the one(s) mentioned in the disseminated composition may be present in the products. However, they are not relevant under the scope of Californian cleaning product right to know regulations (SB 258), so have not been listed.
*IECIC=Inventory of Existing Cosmetic Ingredients in China

REACH COMPOSITION

Chemical name	EINECS/ELINCS/CE/INDEX /NLP	REACH Status	Concentration/range
2,2-dimethyl-1,3-dioxolan-4-ylmethanol	202-888-7	Registered 01-2120066005-66-xxxx	>= 99 %

IMPURITIES OF THE PRODUCT

Does this product contain the following impurities	Was it tested
Residual solvent(s)	Acetone, Residual solvent(s) according to ICH guidlines : Class 3

INTERNATIONAL REGULATIONS

Status Information	Status
United States TSCA Inventory	- All substances listed as active on the TSCA inventory
Canadian Domestic Substances List (DSL)	- Listed on Inventory
Australian Inventory of Industrial Chemicals (AIIC)	- Listed on Inventory
Japan. ENCS - Existing and New Chemical Substances Inventory	- Listed on Inventory
Korea. Korean Existing Chemicals Inventory (KECI)	- Listed on Inventory
China. Inventory of Existing Chemical Substances in China (IECSC)	- Listed on Inventory
Philippines Inventory of Chemicals and Chemical Substances (PICCS)	- Listed on Inventory
Taiwan Chemical Substance Inventory (TCSI)	- Listed on Inventory
New Zealand. Inventory of Chemical Substances	- All components are listed on the NZIoC inventory. Additional HSNO obligations may apply. Please refer to Section 15 of SDS for New Zealand.
EU. European Registration, Evaluation, Authorization and Restriction of Chemical (REACH)	- When purchased from a Solvay legal entity based in the EEA (""European" "Economic Area""), this product is compliant with the registration" provisions of the REACH Regulation (EC) No. 1907/2006 as all its components are either excluded, exempt, and/or registered. When purchased from a legal entity outside of the EEA, please contact your local representative for additional information.
Korea. Act on Registration and Evaluation of Chemicals	- When purchased from a Solvay legal entity based in Korea, this product is compliant with "Act on Registration and Evaluation of Chemicals" (AREC or K-REACH, Article 10) as all its components are either excluded, exempt, and/or (pre)registered. When purchased from a legal entity outside of Korea, please contact your local representative for additional information.
Colombia. National Inventory of Chemical Substances.	- Listed on Inventory

RAW MATERIAL ORIGIN

Topic	Type	Presence in the product
Raw material origin	Synthetic	Yes
Raw material origin	Plant	Yes Plant Origin:Soya
Raw material origin	Animal	No

EUROPEAN REGULATIONS

Topic	Regulation	Information
REACH - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles (Annex XVII)	REACH - Restrictions on the manufacture, placing on the market anduse of certain dangerous substances, preparations and articles (Annex XVII)	Requirements of Annex XVII to Regulation (EC) 1907/2006 apply to this product. The precise list of restricted uses is available in the corresponding entry of this annex. Number on list: 3 Shall not be used in: - ornamental articles intended to produce light or colour effects by means of different phases, for example in ornamental lamps and ashtrays, - tricks and jokes, - games for one or more participants, or any article intended to be used as such, even with ornamental aspects.
REACH - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles (Annex XVII)	REACH - Restrictions on the manufacture, placing on the market anduse of certain dangerous substances, preparations and articles (Annex XVII)	Certain uses may be restricted or banned. This substance/mixture shall not be used in aerosol dispensers intended for supply to the general public for entertainment and decorative purposes. acetone Number on list: 40 *Shall not be used, as substance or as mixtures in aerosol dispensers where these aerosol dispensers are intended for supply to the general public for entertainment and decorative purposes such as the following: — metallic glitter intended mainly for decoration, — artificial snow and frost, — ‘whoopee’ cushions, — silly string aerosols, — imitation excrement, — horns for parties, — decorative flakes and foams, — artificial cobwebs, — stink bombs.

Topic	Regulation	Information
REACH - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles (Annex XVII)	REACH - Restrictions on the manufacture, placing on the market anduse of certain dangerous substances, preparations and articles (Annex XVII)	Requirements of Annex XVII to Regulation (EC) 1907/2006 apply to this product. The precise list of restricted uses is available in the corresponding entry of this annex. acetone Number on list: 75 *Extract of entry 75: Shall not be placed on the market in mixtures for use for tattooing purposes, and mixtures containing any such substances shall not be used for tattooing purposes, after 4 January 2022.
REACH - Candidate List of Substances of Very High Concern for Authorisation (Article 59).	Candidate List of Substances of Very High Concern for Authorization	Not applicable This product does not contain substances listed on the REACH Candidate List of Substances of Very High Concern (SVHC) above 0.1%.
REACH - List of substances subject to authorisation (Annex XIV)	EU. REACH - Annex XIV: List of substances subject to authorization	Not applicable This product is not subject to REACH authorization requirements (Annex XIV).
Regulation (EU) 2019/1021 on persistent organic pollutants (recast)	EU. Regulation (EU) 2019/1021 on Persistent Organic Pollutants -Annex I Substances Subject to Prohibitions	Not applicable This product is not subject to the requirements of (EC) Regulation no 2019/1021 on persistent organic pollutants.
Heavy Metals	EU. Directive 2000/53/EC of the European Parliament and of the Council of18 September 2000 on end-of life vehicles	Not applicable Cadmium, hexavalent chromium, lead and mercury have not been intentionally added or used during the manufacturing process.
Heavy Metals	Directive 94/62/EC and its amendments	Not applicable Cadmium, hexavalent chromium, lead and mercury have not been intentionally added or used during the manufacturing process.
ROHS	Restriction of Hazardous Substances Directive 2011/65/EU with amendments	Neither banned nor restricted Forbidden or restricted substances mentioned in the Directive 2011/65/EU and its amendments are not intentionally added during the manufacturing process of this product, and no possible cross contamination can occur. Thus, these substances are not expected to be present in this product.
Regulation (EU) No 649/2012 of the European Parliament and the Council concerning the export and import of dangerous chemicals	EU. Regulation (EU) No 649/2012 of the European Parliament andthe Council concerning the export and import of dangerous chemicals	This product is not subject to the requirements of Prior Informed Consent (PIC) Regulation (EU) 629/2012.

Topic	Regulation	Information
EU Ecodesign: Regulation (EU) 2024/1781 establishing a framework for the setting of ecodesign requirements for sustainable products	EU Ecodesign: Regulation (EU) 2024/1781 establishing a framework forthe setting of ecodesign requirements for sustainable products	Not listed This product does not intentionally contain any of the substances on this list.
Ordinance on the Incentive Tax on Volatile Organic Compounds (OVOC)	Switzerland. Ordinance on the Incentive Tax on Volatile Organic Compounds(OVOC)	no VOC duties <= 3 %
Safety of Toys	Directive 2009/48/EC for Safety of Toys	Aluminum, antimony, arsenic, barium, boron, cadmium, chromium (III), chromium (VI), cobalt, copper, lead, manganese, mercury, nickel, selenium, strontium, tin, organic tin and zinc have not been intentionally added or used during the manufacturing process. However the suitability of this compound for the manufacturing of toys needs to be assessed on the basis of the finished material properties and migration levels. It is the user's responsibility to ensure that the limitations described in the legislation are met and comply with prevailing regulation on the finished product.
WEEE	Directive 2012/19/EU - Waste Electrical and Electronic Equipment	Substances mentioned in Annex VII of the Directive 2012/19/EU have not been intentionally added to the product and therefore are not expected to be present.
Nanomaterials	Inventory declaration of Nanomaterials: France	To the best of our knowledge, no information leads us to believe that this product contains or is considered a nanomaterial or a substance at the nanoscale according to the French Decree n° 2012-232 of 17 February 2012.
Nanomaterials	Inventory declaration of Nanomaterials: Belgium	To the best of our knowledge, no information leads us to believe that this product contains or is considered a nanomaterial placed on the Belgian market, subject to a registration under the Royal decree of 27 May 2014.
Animal testing	The ban on animal testing of Regulation (EC) N° 1223/2009	The product is in compliance with European Regulation 1223/2009 regarding the ban on animal testing (Article 18).
Animal testing either after March 2013 or after March 2009	The ban on animal testing of Regulation (EC) N° 1223/2009	Yes, a detailed certificate is provided upon request.
EU Cosmetics Regulation 1223/2009/EC	Regulation (EC) N° 1223/2009 on cosmetic products	None of the prohibited substances mentioned in article 15 (CMR substances) of the EU Cosmetic Regulation have been intentionally added to the product.

Topic	Regulation	Information
Annex II of the EU Cosmetics Regulation	Annex II of Regulation (EC) N° 1223/2009 for cosmetic products	None of the prohibited substances mentioned in article 14 (Annex II) of the EU Cosmetic Regulation have been intentionally added to the product, and are therefore not expected to be present.
European Regulation (EC) No 1272/2008 on classification, labeling and packaging of substances and mixtures (CLP)	Regulation (EC) No 1272/2008 on classification, labelling and packaging of substances and mixtures, Annex VI, Table 3	The product does not contain any substances listed in Part 3 of Annex VI to Regulation N°1272/2008 (as amended) that are classified as Carcinogenic, Mutagenic or toxic for the Reproduction (CMR) and the main chemical substance(s) of the product is/are not classified as such.
Contaminants in Foodstuffs	European Regulation 2023/915 regarding maximum levels of contaminants in food	The product is not intended to be added to food and therefore the provisions laid down in the EU Regulation 2023/915, regarding maximum levels set for specific contaminants in food, do not apply in this context., For more details, please refer to the available regulatory statements.
Genetically Modified Organisms (GMOs)	European Regulations N°1829/2003 & N°1830/2003 relative to the placing on the market of genetically modified food & feed or food & feed products containing or consisting of Genetically Modified Organisms (GMOs)	In the context of EU Regulation No.1829/2003 and Regulation No.1830/2003 as amended, this product can be manufactured from raw materials (glycerol) originated from GMOs. Therefore, we cannot guarantee its non-GMO origin. Nevertheless, PCR tests are performed on glycerol and confirm a tolerance limit for the presence of GMOs not exceeding 0.1%.
Food Allergy and Intolerance	Regulation (EU) n° 1169/2011 annex II concerning food allergens	The product has not been analyzed for the presence of the Allergens listed in this regulation. The raw material Glycerol is produced from soybean, but glycerol is obtained after several steps of extraction and purification of the vegetal oil and thus, we do not expect the presence of soybean traces in this product. Therefore, there is no expectation for the product to contain any of these listed food allergens.
Genetic ressources - Access and Benefit-Sharing (ABS)	Nagoya Protocol on Access to Genetic Resources and the Fair and Equitable Sharing of Benefits Arising from their Utilization: Regulation (EU) No 511/2014 and Implementing Regulation (EU) No 2015/1866	Not applicable
Volatile Organic Compounds (VOC)	Directive 2010/75/EU on the limitation of emissions of Volatile Organic Compounds	A detailed certificate is provided upon request

Topic	Regulation	Information
Irradiation of Foodstuffs	European directive 1999/2/EC relative to food & food ingredients treated with ionising radiation	This product is manufactured without exposure to ionising radiation, thus is considered a non-irradiated product and is not subject to labelling requirements, according to the European Directive 1999/2/EC and Directive 1999/3/EC as amended.
REACH (Annex XVII) - Synthetic Polymer Microparticles (Microplastics)	REACH - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, preparations and articles (Annex XVII) – Entry 78	No synthetic polymer microparticles (microplastics) are intentionally added to this product or used during the manufacturing process and no contamination with microplastics should be expected in this context. Nevertheless, no monitoring is implemented in the raw materials, finished product and throughout the manufacturing process.
EU Regulation on Deforestation-free products	European Regulation No. 2023/1115 on Deforestation-free products	The EUDR is not applicable to this product derived strictly from chemical synthesis and not listed as relevant product under Annex I. Moreover, it is derived from a relevant vegetable-based raw material with an HS code listed in Annex I but not originated from the associated regulated commodity (palm oil) under the current scope of EUDR.

AMERICAN REGULATIONS

Regulation	Information
Heavy Metals CONEG	Cadmium, hexavalent chromium, lead and mercury have not been intentionally added or used during the manufacturing process.
US. Clean Air Act - Hazardous Air Pollutants (HAP) - 40 CFR 63	This product does not contain any hazardous air pollutants (HAP), as defined by the U.S. Clean Air Act Section 112.
US. Clean Air Act Section 111 SOCMI Intermediate or Final Volatile Organic Compounds (VOC) - 40 CFR part 60.489	This product does not contain any chemicals listed under the U.S. Clean Air Act Section 111 SOCMI Intermediate or Final VOC's (40 CFR 60.489).
40 CFR 51.100(s) - Definition - Volatile Organic Compounds (VOC) Exemptions	This product does not contain any VOC exemptions listed under the U.S. Clean Air Act Section 450.
US. California Safe Drinking Water & Toxic Enforcement Act (Proposition 65)	This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.
TSCA - 5(a) Significant New Use Rule List of Chemicals	No substances are subject to a Significant New Use Rule.

Regulation	Information
US. Toxic Substances Control Act (TSCA) Section 12(b) Export Notification (40 CFR 707, Subpt D)	No substances are subject to TSCA 12(b) export notification requirements.
FDA 21 CFR Indirect Food Contact	Authorized with restrictions, For more details, please refer to the food contact certificate.
Food Allergen Labeling and Consumer Protection Act	The product does not contain any of the nine ingredients identified as major food allergens by Food Allergen Labeling and Consumer Protection Act (FALCPA) and Food Allergy Safety, Treatment, Education, and Research (FASTER) Act.
BRAZIL - Nagoya Protocol on Access to Genetic Heritage and sharing of benefits for the conservation and sustainable use of biodiversity : Law Nº 13.123, of May 20, 2015 and Decree No.8772 of May 11,2016	Not applicable

ASIAN REGULATIONS

Topic	Regulation	Information
Chemical Substance Control Law	Japan. CSCL, Specified and Monitoring substances (class 1 and 2, designated substances)	This product does not intentionally contain any of the substances on this list.
Harmful Substances Prohibited from Manufacturing	Korea. Harmful Substances Prohibited from Manufacturing	This product does not intentionally contain any of the substances on this list.
Prohibited Substances	Korea. Prohibited Chemicals	This product does not intentionally contain any of the substances on this list.
Toxic Substances	Korea. Designation of Toxic Substances	This product does not intentionally contain any of the substances on this list.

ADDITIONAL INFORMATION

Topic	Information
Alkylphenol Ethoxylates / Nonylphenol Ethoxylates (APEOs/NPEOs)	APEOs are not intentionally added to the product and therefore are not expected to be present.
Global Automotive Declarable Substance List (GADSL)	This product does not intentionally contain any of the substances on this list.

Topic	Information
Phthalates	Phthalates have not been intentionally added to the product and therefore they are not expected to be present.
Allergenic substances	The product has not been analyzed for the presence of the 82 allergens as defined in the European Cosmetic Regulation as amended (EU 1223/2009). None of the substances have been intentionally added in the manufacturing process and therefore are not expected to be present.
Animal content	The product may be derived from plant ; however, plant derivatives are not expected to be present in the product since glycerin is obtained after several steps of extraction and purification of the vegetable originated starting material (vegetal oil)., No
Conflict Minerals	"Conflict Minerals" include columbite-tantalite (coltan), cassiterite (tin), gold, wolframite (tungsten), or their derivatives, when sourced from the Democratic Republic of the Congo and its adjoining countries. To the best of our knowledge, no "conflict minerals" are necessary to the functionality or production of Solvay's products. Based on Solvay's review of its raw materials, suppliers, products, available analytical data and manufacturing processes, we have no reasonable expectation that any conflict minerals would be present in our products.
Bovine/Transmissible Spongiform Encephalopathy (BSE/TSE)	Materials of animal origin have not been intentionally added to the product and therefore the presence of BSE/TSE infectious agents is not suspected.
Gluten	Ingredients containing gluten are not intentionally added during the manufacturing process, therefore it is not expected to be present in the product.
Kosher	This product is derived from raw materials of vegetable and/or synthetic origins. It does not intentionally contain grain, grapes or fermentation sources. It does not contain wheat, oat, barley or rye derivatives. Derivatives such as alcohol originating from wheat are not used in the production of this product., The product has not been externally certified.
Halal	This product is derived from raw materials of mineral, vegetable and/or synthetic origins, which have been chemically processed. It does not intentionally contain materials of the following nature: Porcine or other animal-derived materials, BSE/TSE infectious agents, Enzymes, Ethanol or other food-related alcohols., The product has not been externally certified.
Country of Manufacture	Brazil
CITES	This product does not contain any ingredients that are listed under the CITES conventions.
Genetically Modified Organisms (GMOs)	This product can be manufactured from raw materials (glycerol) originated from GMOs. Therefore, we cannot guarantee its non-GMO origin. Nevertheless, PCR tests are performed on glycerol and confirm a tolerance limit for the presence of GMOs not exceeding 0.1%.
Rubber / Latex	Natural rubber latex (CAS# 9006-04-6) is not intentionally added during the manufacture of this product, nor is it processed with additives derived from natural rubber latex.
CleanGredients™	Listed on CleanGredients. Approved for use in Safer Choice products as a solvent., Does not meet Direct Release criteria.
Per- and polyfluoroalkyl substances (PFAS)	This product has not been analyzed for the presence of PFAS. To the best of our knowledge, PFAS are not intentionally added or produced during the manufacture of this product.

Topic	Information
Pharmaceutical Ingredient Disclaimer	This product is not manufactured in accordance with current good manufacturing practices (cGMP) as specified in any potentially applicable statutes, regulations, regulatory guidance documents or industry standards (e.g., ICH Q7). In addition, this product is not sold for or intended for use as an ingredient in any drug products.
Nanomaterials	Nanomaterials have not been intentionally added to the product and therefore they are not expected to be present.
1,4-Dioxane/Dioxanes	Such substances have not been intentionally added or used during the manufacturing process. Thus, these substances are not expected to be present in this product.
Diethylene Glycol	Such substances have not been intentionally added or used during the manufacturing process. Thus, these substances are not expected to be present in this product.
Formaldehyde and releasers	Such substances have not been intentionally added or used during the manufacturing process. Thus, these substances are not expected to be present in this product.
Nitrosamines	Such substances have not been intentionally added or used during the manufacturing process. Moreover, these substances should not be generated and thus they should not be expected to be present in this product.
Palm Oil/Kernel Oil	This product does not contain palm derived materials.
Endocrine disrupting compounds	To the best of our knowledge, and based on the manufacturing process & raw material derived, this product does not intentionally contain any Endocrine disrupting compounds.
Natural origin cosmetic ingredients (ISO 16128)	The calculated percentage of the naturalness of the product according to ISO 16128 standard is 68%.
Preservatives	This product does not contain any intentionally added preservatives.
