General Silicone Spray – Technical Sheet

Base: Silicone oil blend
Appearance: Transparent liquid
Density: 0.737 g/mL
Pressure Resistance: 1400 kg/cm²
Temperature Range: –40°C to +280°C
Dielectric Strength: 14 kV/mm at 20°C
Electrical Resistance: 4×10^{15} Ohm/cm
VOC Content: 90%
Water Solubility: Insoluble

Key Features:

- High-performance lubricant
- Reduces friction and wear
- Anti-rust, water-repellent, anti-adhesive
- Electrical insulation
- Suitable for indoor & outdoor use
- 360° application capability

Uses:
Ideal for lubricating plastic, rubber, silicone and sliding parts. Prevents dirt adhesion, protects cables and machinery from moisture, and enhances shine on plastic and rubber. Do not apply to brake drums/discs or paintable surfaces. Ideal for lubricating silicone or plastic molds for easier demoulding.

Packaging: 400 ml aerosol (transparent)
Shelf Life: 36 months in original container
Storage: Cool, dry place, +5°C to +25°C
Application: Shake well, spray from 20 cm, apply thin layer on clean, dry surfaces.
Safety: Use in well-ventilated areas. In case of eye contact, rinse with plenty of water.
